

CHAPARRAL POINTE ADULT VILLAGE

IMPORTANT NOTICE: Re: GARBAGE BUILDINGS

We are finding that some people are leaving in the buildings things that do not belong there. For instance, television sets, light fixtures, furniture, books, and items offered 'free for the taking' have been put in there. If you need to find out where to take things such as that, go to the city website that tells you 'what goes where'. Books, for instance, can be donated to a local lending library such as the one on Chaparral Street or the one in the building at the lake. The company that picks up garbage from our buildings will not take television sets, light fixtures, etc. There is the Shepherd Landfill nearby for large items. We need to be a responsible community.

RECYCLING: We have noticed that sometimes recyclables such as yogurt and margarine containers have residue in them when they are dropped in the bin. This can contaminate other recyclables so we ask that you please rinse out any residue beforehand. Also, when you donate items such as water bottles, please empty them first and remove the lids. Thank you!
