

The Board of Chaparral Point wishes to announce that the votes have been counted and the new proposed Version 6 of the Bylaws has been accepted by the owners - with 77% unit factors of the complex in favour. They will become effective when they are registered with Land Titles. The timing of this is unknown because of shut-downs and service cuts under COVID isolation procedures. When this registration is completed, the owners will be advised, and a hard copy will be delivered. Thank you for your votes.

Also due to the COVID isolations, the Board asks that **the returnable cans and bottles be retained in your units, and not put in the garbage building containers** until the "Stay at Home" guidelines are rescinded. Those doing the Bottle Depot runs should not be put at risk. Thank you for your co-operation.

Stay healthy
