

NOTICE TO OWNERS
CHAPARRAL POINT CONDOMINIUMS

Please note that on Thursday afternoon (July 23) there will be an application of broad-leaf spraying on the lawns. Please keep pets and people off the grass for safety.

Residents may again place returnable bottles and cans in the blue “garbage type” containers in the garbage buildings. The money raised from the return of these goes to flowers and extra expenses of the common area. Thank you for your patience during the tightest COVID restrictions.

Big thanks to some of the residents (and guests) that have volunteered in keeping our complex so clean and attractive. Diane and Pete Haggarty were spotted washing out the north garbage building, the idea of a bench in the garden setting by the mailbox came from Connie Touw, the donation of the bench was from Wendy Landy, Cheryl Hougese’s daughters helped with flower planting, and Garnett Hamm donated his time in building a skirting around the mailbox. The gifts of your time and expertise are so appreciated!
